

The Music Store Database Project

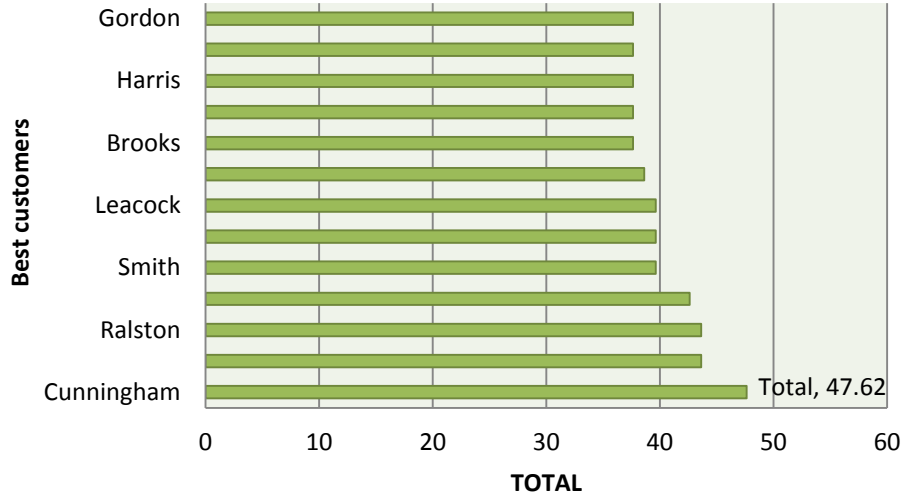

Visualization of purchases in USA

The CEO asked me that I extract most of the US cities interested in the store in order to perform a concert for the most sales store in America.

As a data analyst, it became clear to me that the best-selling US city is Mountain View, with 14 purchases.

Best customers In USA

The CEO asked me to extract the 3 best clients in America who made the most purchases in order to invite them to the concert and reward them with an annual subscription.

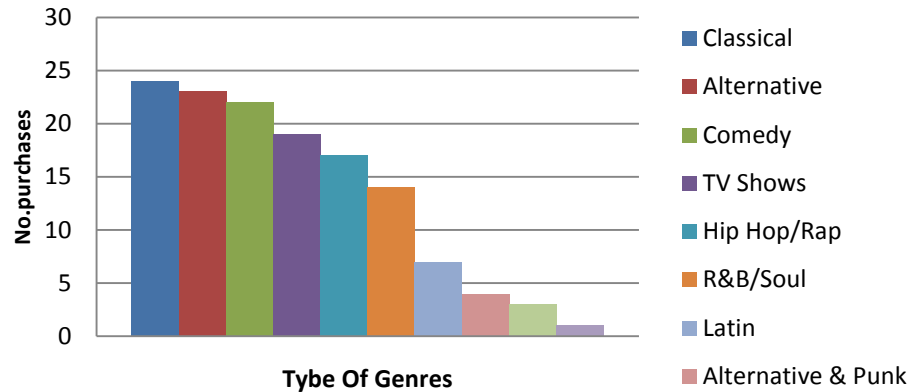

As a data analyst, it became clear to me that the best customers are:

1- Richard Cunningham

2 - Julia Barnett

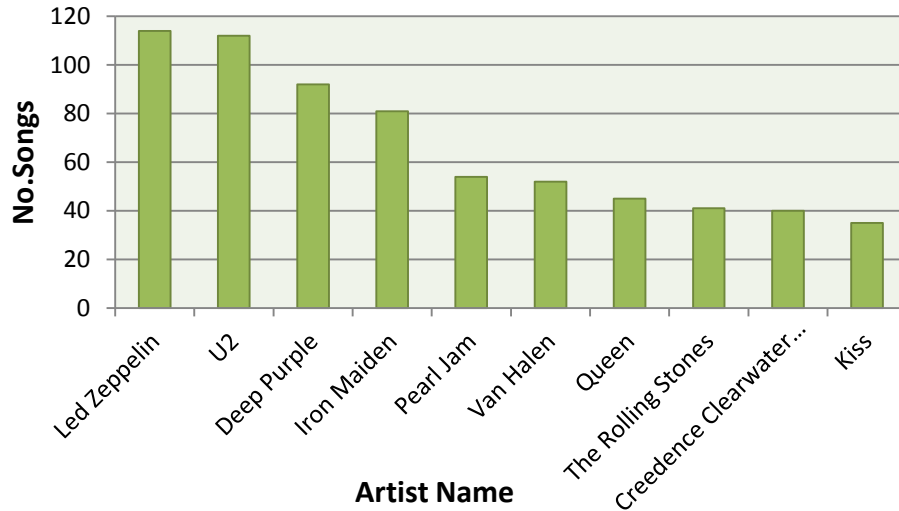

3 - Frank Ralston

Genres most used in Chicago

There a lot of genres of music in Chicago so most customers love Classical songs Where there are 24 customers for Classical more than Alternative songs.

Artists who have written the most rock music

The CEO asked me to extract the most rock-writing artists to invite him to the concert.

As a data analyst, it dawned on me that the best artist is Led Zeppelin

Thank you
